The statement also criticises President Roosevelt, saying he has set up a policy of autocratic force and has shown that a President who has the will to usurp executive functions, to exalt the power of the executive above the Constitution, to commit our nation to violations of international pstice, easily finds a way.

### ROOT FOR GOVERNOR.

Republican County Chairmen Declare for His Nomination. The New York Herald of yesterday gives the following as the probable Republican ticket in New York:

Controller-Otto Kelsey, of Genesee.
Attorney-General-Henry B. Coman, of Madison.

chairmen of the Republican County Com-mitteer this appears to be the Ucket, which will be nominated at Saratoga by the State Convention, which meets Sep-

the State Convention, which meets September 14th.

In order to ascertain the Republican sentiment of the State regarding the proposed nomination of former Secretary of War Elihu Root, the Horald yesterday polled the chairmen of the various county committees on their preference for Governor. The chairmen were not asked to say whether they were for Mr. Root, but simply in announce their candidate. The result is so overwhelming in favor of Mr. Root as to be princiteally unanimous, and to leave no doubt of the nomination of the friend and advisor of the President, who must either run or withdraw from the ticket. Only three county chairmen expressed themselves for any other candidate.

If by any possibility Mr. Root should not become the candidate at Saratosa there would be a battle royal between Lieutenant-Governor Higgins and former Lieutenant-Governor Woodruff, as they are the second choice of about an equal rumber of chairmen.

CATO FOUND GUILTY.

At 7:18 o'clock to-night the jury in the case of the State vs. Will Cato returned a verdict of guilty after being out eight in thutes. Judge Daly immediately adjourned court until 8:30 o'clock to-morrow without passing sentence on the prisoner. There were less than one hundred people in the court room when the jury returned its verdict. There was not the slightest evidence of 'pleasure or displeasure at the jury's finding, as the verdict was anticipated before the local commenced.

As soon as Judge Daly announced a recess until to morrow morning the court room was cleared, and, after waiting a half hour the prisoners were escorted back to the jail, under a heavy military guard. Stationed every three or four feet from the courthouse entrance to the jail were armed men with fixed bayonets.

After 6 o'clock no one was allowed to enter the courthouse, heavy guards being placed at each of the ontances, four in number.

He was asked if the suffrage cases would come up again. He replied: "Oh, yes, I suppose they will be taken up some time."

Speaking of these cases, Captain Wise said:

Speaking of these cases, Captain Wise said:

"These Democratic papers said when I took those cases that I was after the fee, and that when the money stopped I would stop, 100." After a moment's reflection Mr. Wise added: "Well, I guess that isn't very far wrong. I took the cases as a lawyer for a fee, and not through any mere love for the negro. They wanted a lawyer, and they were entitled to employ one, and I took the case."

Speaking of the deprivation of the negro of his suffrage, he said that the Republican party was hypocritical in its attitude toward the negro, and that Republican did the Democrats. It was a mistake to suppose that the people of the North ad-

Discussing what he characterized the hypocrisy of the Republican party in the nation, he detailed a conversation he had had with Senator Joiliver, in which he (Wise) had suggested that the effect of the disfranchisement of the negroes in the South would probably be to drive them to the North, where they would get their rights. Mr. Dolliver promptly objected to such a solution of the problem, saying that the Northern people did not want them.

Captain Wise sharply criticised the novels of Tom Dixon and Dr. Thomas Nelson Page on reconstruction, saying that they were both overdrawn and list they were calculated to keep alive bitterness which should be allowed to die. This was aspecially true of "The Leopard's Spots," he said. He characterized Mr. Dixon's story as "bnd-hearted," and declared that it did an injustice to the Southern whites to create the impression that they would submit to such outrages and indigintles. The carpet-baggers were a set of cowards, he said.

"The Democrats have plenty of money in the campaign. The trusts, or some of them, are behind them, because they are opposed to Roosevelt. They are agitating floosevelts personality and trying to make that the issue, in order to distract attention from themselves. They do not like for trusts to be made an issue. But even on a campaign the issue in, which is the personality of the two candidates. I think Roosevelt will win because he has a stronger personality than Parker. It is like a highly colored and a coloriess plate.

"The Republican party needs a good licking, and I thought, up to two weeks ago, it was going to get it, but if do not think so now. I think Roosevelt will be greatly strongthened if Root is nominated for Governor, and that this will positively assure his carrying New York. Root is a very able man and a very strong one with the people, but cold. Root and Roosevelt will sweep New York. Connecticul and New Jersey are apt to go as New York goes."

The Committee on Light met last night at 8 o'clook. Members present were Messrs. Minor, sub-chairman; Lynch, Gilman, Blair, Zinmerman and Wacher. After the pay roll had been read and approved, a letter was read from the Virginia Passenger and Power Company, saying they would terminate their present contract for lighting Chimborazo and Reservoir Parks on October 5th next, On motion the letter was referred to the Cliy Attorney for his opinion as to whether or not the company was within its legal rights in the matter.

A resolution was introduced by Mr. Lynch that an effort should be made to obtain instruments for measuring the candle-power of ara lamps. It was decided to communicate with the Westinghouse Electric Company about such instruments.

## MUST WORK TO TASTE PIE

President Roosevelt Issues This Ultimatum to Southern Republicans Again.

DID NOT HOLD GOOD BEFORE

Congressman Slemp Made a Fight and Won, But Agnew Had Most of Patronage.

(From Our Regular Correspondent.) WASHINGTON, D. C., August 15.-President Roosevelt is after Republican office-holders of the South, and after them in a way that he is determined be productive of results, however much in doubt may be men more fahas recently renewed his statement first made two years ago that the Federal Southern States are to be given to the Republicans who get out and hustle for the party. Several Re-publican leaders from Southern States have called at the White House recent-ity, and upon each of them have been im-pressed the fact that they need not ex-pect to have recognition at the hands of the President when the time for the dis-tribution of patrogram comes ground untribution of patronage comes around un-

tribution of patronago comes around unleas they have something to show that
they have made a real fight for the national ticket.

There is nothing new in this, for Mr.
Rosseveit has said it all before, with
emphasis. It did not have much effect.
For it is well known that the patronage
of the administration in the Southern
States has been distributed upon the States has been distributed upon the recommendation of men who represent the office-holders and the old organization, which does not represent the fighting element of the party.

Mr. Slemps Experience.

Representative Slemp was looked upon as the dispenser of the patronage in Virginia Jecause of the promise of the President that he would allow the pie to be handed out by the men who did the fighting. It looked for a time as though he

"It seems to me the Democrats had a good chance to win if they had named a man with more enthusiasm and conducted a hurrah campaign. The party had been badly divided, and many sores had been left, but a whooping, enthusiastic campaign would have made them forget ther differences and given them an excellent chance to win. I am not enthusiastic for Roosevelt, but there is no denying that appears or something that appears to the people, especially the masses.

"The Democrats have planty of certain that there has been money sent into the State to be used for this purpose. I have the best of reasons for saying that, several hundred dollars have been spent in the payment of capitation taxes. I know one precinct in that county where the Democrats had a majority of eighteen, possibly twenty. Every single Republican registered there has paid his poil tax, while twenty-two Democrats failed to do so. They were amply able to pay it, but overlooked their duty. Of four brothers who vote the Democratic acket at that precinct, only one remembered to pay his capitation tax. and his attention happened to be directed to the matter late on the last day of the period in which he could pay it.

"I am afraid that the Democrats are going to be surprised at the small vote which will be polled at many precincts." Chairman Cowberd, of the Democratic Congressional Committee, is in New York to-day. While there he will decide whether the headquarters of the committee will be made.

The Democratic handbook for the campaign of 1904 will be out the later part of the present week or early next week. There have been many requests for it from nearly every State in the Union. The book is largely the work of Senator Culberson, of Texas, and Senator Carmack, of Tennessee. It will have much valuable orators.

Daily's Boys Show Their Ability to Play Great Base-Ball.

Never before has Richmond seen such base-ball as the Twin City League is put-ting up. The old Virginia State League nor the Atlantic League eclipsed it, and the four teams in the Twin City League are giving just what the cranks want. Staunton, the champlons of Vriginia and West Virginia, were yesterday defeated by the Brownles, the leaders in the

work. This was true particularly of Pow-ell, Moore and Porter, of the visitors, and

The Brownies' infield, embracing Anthony, Eacho, Hicks and McEvoy, is as fast as Richmond ever saw, and with Hulcher and McLeavy in the points, nothing could have stopped the Brownies. Up to the sixth inning the game was anybody's. In the first inning the game was anybody's. In the first inning Sharp hit and scored on a choice and Charlie Eacho's hit. Nothing was done by Staunton until the fourth. C. Lambert stingled. He was forced on a pass to Tremble and scored on Porter's hit. Tremble slid down on the hit and tailled on Johnnie McEvoy's alip through.

But that was all for the big fellows from Staunton. Once or twice they got to second, but no further.

In the fifth Knowles hit a hot one over to Powell, who threw wild to Spencer. The ball went over into the east bleacherles, and Knowles scored. Then in the next inning McEvoy got a dead head to first, and went to third on Eacho's hit. Eacho stole second, and both men scored on Jones's error. The seventh was a blank.

The victory was cinched in the eighth. Sharp safed on Powell's error and got to second on an error of Moore, which gave Eacho his base. The latter swiped second, and both men scored on Knowles's hit. thony, Eacho, Hicks and McEvoy, is as
